

The following is an every name index, containing 5,659 entries. Women will be listed under both maiden and married names. If a maiden name is unknown, I have included her in the beginning with brackets. Not included are names which appear in lines of descent. Titles are not included, except for those who officiated at marriages. Names may be found more than once on a page and while some alternate spellings for names are listed here, the reader is reminded that various versions may be found in the text. Those having no surnames, such as servants and Indians, will be found at the end.
